

PRESS NOTE

CREMONINI GROUP: the new website www.chefexpress.it is now online.

With the “booking on board” service, it is possible to book breakfast, lunch and dinner on board trains directly online (bookingoffice@cremonini.com).

“Chefexpress Sudoku” on board trains: solutions available online.

The new Chef Express website is now online, the brand of the Cremonini Group catering division, the leader in Italy in catering on board trains and the second in Europe, where it serves over 630 trains in 7 European countries daily, serving over 35 million clients.

In Italy, Chef Express provides catering on board 280 Trenitalia trains (142 Eurostar and 138 Eurocity and Intercity), providing bar/restaurant, bistrot and mini-bar services, depending on the type of train in question.

Through the website www.chefexpress.it, passengers can “navigate” within the files provided for each type of train, Eurostar, Intercity, Eurocity and Cisalpino, and also the new T-Biz trains connecting Rome and Milan and the High Speed Trains in service since the beginning of the year between Rome and Naples and between Milan and Turin, seeing the various catering services provided.

The website homepage is characterised by new contents and creative graphics, with constant updates on the latest Bar services.

It is possible by opening each menu to consult the bar and cafeteria services available, breakfast, lunch and dinner suggestions, savoury and sweet snacks, the wine list and the prices, thus creating a personalised meal according to one’s needs.

Thanks to a “booking on board” service, it is possible to send an e-mail to the address bookingoffice@cremonini.com and book breakfast, lunch and dinner services, in the restaurant car or bar, with standard or personalised menus for groups of more than 10 people. The possibility of a personalised on location mini-bar service is also provided, for groups of at least 20 people.

The “Chef Express Sudoku” initiative enables all those who play the Sudoku games available on fliers distributed in Eurostar trains to consult the solutions on the website.

The “news on board” area, which is under construction, will be dedicated to Chef Express news concerning menus and special offers, while the “Where we are” area may be consulted for the availability of bar and restaurant services in each single type of train.

Overall, Cremonini registered a turnover of 299.3 million Euro from the catering sector in 2005, an increase of 11.6% compared to 2004. Catering “on board in Europe” activities alone accounted for 155.00 million Euro, 35% in Italy.

Cremonini, with about 6,700 employees, is one of the most important foodstuff groups in Europe, and operates in three business areas: production, distribution and catering.

The Group, with total revenues of 2,128.9 million Euro in 2005, is the overall leader in Italy in the production of beef and meat-based processed products (Montana) and the commercialisation and distribution of foodstuff products to foodservice (Marr). It also has a significant presence in the catering sector and, in particular, is the leader in Italy in catering on board trains and in railway stations (Chef Express). Lastly, the Group is 2nd in the Italian market in motorway catering (Moto).
