Board of Directors and Board of Statutory Auditors appointed.

Luigi Pio Scordamaglia Chairman of the Board of Directors and Francesco Ospitali Chief Executive Officer.

Rimini, 28 April 2026 – The Shareholders' Meeting of MARR S.p.A. (Milan: MARR.MI), the leading company in Italy in the sale and distribution of food and non-food products to the foodservice, today approved the annual financial statements as at 31 December 2025, stating its particular appreciation to the outgoing Chairman, Andrea Foschi, for the work carried out during his term of office.

Main consolidated results for 2025

The MARR Group closed the 2025 financial year with Total Consolidated Revenues of 2,127.4 million euro, up from 2,098.0 million euro in 2024.

Operating profitability for the year, with consolidated EBITDA of 108.8 million euro (120.2 million euro in 2024) and consolidated EBIT of 63.3 million euro (80.7 million euro in 2024), was also impacted by the operational and logistics redesign measures implemented during 2025, aimed at achieving, once the initial start-up phases are over, a recovery in efficiency and an increase in the level of customer service.

These initiatives included: i) the launch of the Castelnuovo di Porto Center-South Platform in April 2025, which, in addition to the initial start-up costs, resulted in temporary cost overlaps with other logistics facilities in Lazio during the year; and ii) the initiation of an insourcing process, through MARR Service S.r.l. (a wholly owned subsidiary of MARR S.p.A.), of internal handling activities; this process accelerated in the final part of the year and was implemented with the aim of directly overseeing internal handling activities and improving the level of service.

Consolidated net profit for the 2025 financial year amounted to 31.0 million euro (42.7 million euro in 2024)

Net Trade Working Capital at December 31, 2025, amounted to 192.5 million euro, compared to 169.2 million euro at the end of 2024. This decrease was also affected by an increase in inventory resulting from the implementation of specific procurement policies.

Net financial debt at December 31, 2025, before the application of IFRS 16, was 203.8 million euro (170.4 million euro at December 31, 2024). After including the effect of IFRS 16, which increased following the lease of the facility for the MARR Center-South Platform, it was 292.6 million euro (237.9 million euro at December 31, 2024).

Financial debt at the end of the 2025 financial year, compared to that at December 31, 2024, is affected by investments of 25.5 million euro, dividends of 38.5 million euro distributed in May 2025 and the purchase of treasury shares during the year totaling 9.8 million euro.

Consolidated shareholders' equity at December 31, 2025, amounted to 328.6 million euro (345.6 million euro at December 31, 2024).
